The Civil Air Patrol Patches are procured from manufactures which use color-fast material and thread in the making of these patches. This color-fast process is tested and certified by the manufacture; however, neither the manufactures nor the bookstore can be responsible for the fading or bleeding of patches if the material is not washed correctly. Different detergent and bleach and even the minerals in the water itself, in a certain area may affect the coloring of any material including your wing patch. We recommend that garments which have patches on them be washed in cold water without a bleach.

## Eleventh Heaven

Only eleven ounces.

Think about it. That's half the weight of the shoe you're wearing now.

And that's only half the story.

Bates® Lites are also 75% cooler, thanks to the insulating values of the lightweight polyurethane sole and the breathable Cambrelle® lining that keeps your foot comfortable on any surface in any kind of weather.

Your foot gets the extra support it needs from the removeable, cushion innersole similar to those used in athletic footwear.

*Arch-supporting innersole.*

All this adds up to greater comfort with less fatigue, whether you're on duty or at home.

Bates® Lites are available in both leather and high gloss oxfords as well as a zippered paratrooper boot. Ask for them at uniform shops near you.

## AEROSPACE: *The Journey of Flight*

### Geared for Senior Cadets

*Aerospace: The Journey of Flight* is also a full-color product and is designed for cadets in Phases III and IV. Portions of this 27-chapter, 640-page, hard-bound textbook will become assigned reading for older cadets. These readings will be an excellent tool to help senior cadets fulfill their mentoring and instructor responsibilities with the younger cadets. The book contains six sections: the History of Air Power, Air Environment, Principles of Flight and Navigation, Rockets, Space and Aerospace Community.

Cat. No. 0038D **\$17.50**  
(Members Only)

**NEW!**

### 6 module set of *Aerospace Dimensions*

The book, *Aerospace Dimensions*, is designed for Phase I and Phase II cadets. It is not a single textbook, but six separate softbound learning modules. The titles of these six modules are: "Introduction to Flight," "Aircraft Systems and Airports/Airways," "Air Environment," "Rockets," "Space Environment," and "Spacecraft." Each learning module consists of approximately 35 full-color pages.

Cat. No. 0037D **\$9.50** (per set of 6)

also available:

**Student Study Guide** Cat. No. 0037F **\$1.00** each

A cadet can complete each module over a two month period and the modules can be accomplished in any order so new cadets can join right in with the other cadets who are already in the program. The modules are supported with student, leader, and resource guides. In addition, each module has learning outcomes and "Test Your Knowledge" questions. Every module includes several fun and exciting hands-on, group-based activities that reinforce learning. All of these activities can be accomplished with readily available and inexpensive materials. For example, the "Introduction to Flight" module explains how to build a model of the famous supersonic SR-71 spy plane using foam pipe insulation and meat trays. It even flies. All the modules were field-tested in CAP units around the country this past summer and received rave reviews.

## BOOK OF PRAYERS

The Book Of Prayers is a valuable addition to any chaplain or moral leadership officer's library. The prayers were written by Air Force Chaplains for a wide variety of occasions, ranging from invocations at a national prayer breakfast to the opening of a sporting event. The book of prayers can serve as a training aid, demonstrating proper sensitivity in a multi-faith setting, and it can provide "seed thoughts" for the chaplain's own work composing prayers for CAP use.

### SHIPPING - SERVICE CHARGE

A SHIPPING AND HANDLING CHARGE IS REQUIRED ON ALL ORDERS SHIPPED BY THE BOOKSTORE - IN PLACING YOUR ORDER, PLEASE INCLUDE 10% FOR ALL ORDERS.

The three primary methods used in shipment of merchandise from the bookstore are FED EX, UPS and the U.S. Postal Service. UPS policy is to attempt to deliver the merchandise a minimum of 3 times, and then return the package to us. The Post Office generally leaves a notice concerning a package for pickup at a local office if it will not fit in the patron's mail box (Form 3849). If a package is returned by UPS or the Post Office because they could not deliver the package (or the notice of attempted delivery was not responded to by the addressee) and the address on the package is correct, then it will be necessary for the purchaser to send the bookstore the amount of the original postage before reshipment can be made .

### SPECIAL HANDLING

Orders are normally processed and shipped within 5 days after date of receipt. If faster service is needed special handling of your order is available. A special handling charge of \$5.00 is required for special handling. This ensures that your order will be shipped out the day we receive it, if received by 11 AM central time. If you wish your order to be sent UPS next day, UPS 2nd day or Federal Express this cost will be in addition to the special handling fee and is determined by the weight of the entire package.

### RETURNING MERCHANDISE

The CAP Bookstore will be happy to accept returned goods purchased from us for exchange or credit within the terms of our satisfaction guarantee. The following rules will govern returned merchandise.

1. It is necessary in the return process for you to furnish us either a legible copy of the invoice in question or the invoice number involved. This number is located under the address and bottom right hand corner. All return or exchanges must be made within 30 days after receipt of the merchandise. Also include a note stating the reason for return and what action you want taken.

2. If you have ordered an incorrect item and you wish to exchange it for another item (or the same item in a different size), it will be necessary for you to return the item at your expense. We will then exchange the item and return it to you. If this is a Bookstore mistake your postage will be refunded.

3. If you have ordered by Visa/Mastercard and wish a refund on merchandise that you have returned, a credit will be applied to your Visa/Mastercard account. Please furnish us the card number and expiration date. If you ordered and paid for the merchandise by check or money order, the comptroller will issue a check for the refund. Please allow 2 to 3 weeks for check processing.

### UNIFORMS

When ordering uniform items, you should be familiar with CAP Manual 39-1 . This manual (Civil Air Patrol Uniform Manual) describes the various Civil Air Patrol uniform items and how they are to be worn. Although we will try to assist you in ordering, the official uniform is the responsibility of CAP Personnel Directorate and their directive CAPM 39-1.
